

Interface Connectors

USCAR-30 Series :5 Pins Connector for USCAR-30 Standards

■ Features

1. Conforms to the USCAR-30 standard.
2. Conforms to the USB2.0 standards.
3. Integrating a case and hold-down mechanism with the connector allows it to be mounted in once, helping to simplify mounting work and improve assembly workability.
4. Automatic mounting available with a vacuum space.
5. Rich color variation and different key codes are available.

■ Specification

- Number of Pins :5
- Pitch :0.8mm
- Standard :USCAR-30 , USB2.0
- Rating :1.5A, 5V DC (RMS)
- Mounting Method :Reflow DIP (Contact : SMT)
- Mounting Direction :Right-angle
- Locking Joint System :Full-locking
- Contact Resistance :50mΩ max.
- Insulation Resistance :100MΩ min.at 100V DC
- Withstanding Voltage :100V AC (for one minute)
- Operating Temperature Range: -40°C to +85°C
- Operating Life :10cycles

□□:differs by key codes and color codes. Please contact us for more information.

Socket:CSS5305-5H□□F
